High Top Touch Table

Specification Sheet

Designed and built in the USA by Ideum, the High Top Touch Table is an optically bonded all-in-one touch table created specifically for high-impact social interaction including interactive tastings. At 37-inches tall, the table is designed for 26.5” high-seats (not included) and can accommodate four guests simultaneously.

Ideum’s own Tangible Engine software allows developers to create applications with an interactive coaster system, that automatically recognizes beverages or other items placed on the table. The High Top Table is rugged and it has locked push-button operation with secure access to the computer system. It is perfect for events, museums, bars, tasting rooms, wine bars, or other venues.

Available in a dark wood finish with a black solid surface top, the High Top Touch Table can also be customized and produced in just about any color or finish to match the architectural qualities of a space. Whether standard or fully customized, the High Top Touch Table system is covered with Ideum’s three-year warranty.

High Top Touch Table

Specification Sheet

The Tasting Table comes with a powerful integrated computer with exceptional security and cooling. Our standard multitouch tables and kiosks have integrated PCs with the latest generation Intel Core processor and a dedicated full-sized NVIDIA® graphics card.

The computer case and system is designed by Ideum and assembled by our engineers at our studio in Corrales, New Mexico. The computer system, like the table itself, comes with a three-year warranty. The table comes fully assembled. Just plug it in and turn it on.

High Top Touch Table

Specification Sheet

Ideum has designed custom tasting experiences for clients such as MSC Cruises, JCB by Jean-Charles Boisset, Starbucks, the Museum of Sonoma County, and the New Mexico Wine Association. Our interdisciplinary team can design and build compelling custom software including interactive experiences and tastings.

We can also build full custom touch tables to match any setting. Ideum worked with MSC Cruises to ensure that the design and functionality of the wine-tasting [software and the custom touch tables](#) matched the vision for the Helios Wine Bar. This beautiful wine bar is one of the highlights onboard the MSC Euribia.

IMPORTANT NOTICE TO PURCHASER: Specifications are subject to change without notice. Ideum hardware and software are warranted from the date of receipt to the period stated in the warranty. Please note that under Ideum's warranty, Ideum has no obligation for any hardware product that is modified or damaged through misuse, accident, neglect, or subsequent integration, service, or tampering, by anyone other than Ideum or an Ideum-approved entity or individual. Ideum makes no additional warranties, express or implied, including but not limited to any fitness for a particular purpose. The User is responsible for determining whether Ideum hardware products or software are fit for the User's particular purpose. If the hardware product or software are proven not to have met Ideum's warranty, then Ideum's sole obligation and User's and Purchaser's exclusive remedy will be, at Ideum's option, to repair or replace the product or refund its purchase price. Ideum shall not be liable in any action against it in any way related to the hardware products or software for any loss or damages, whether non-specified, direct, indirect, special, incidental or consequential (including downtime, loss of profits or goodwill) regardless of the legal theory asserted. Please see our full warranty for complete details.
